

Mission Statement

To fulfil the dynamic needs of our customers by providing high quality products and services. The KE Group conducts the business responsibly to achieve a superior financial return, balanced with its long-term growth and by doing so provide the opportunity for its employees and shareholders to achieve their reasonable personal objectives as well as fulfilling its commitment to the community and environment.

Our Responsibilities and Commitment to our Customers

Our customers are considered the KE Group's most valuable asset. We work in close partnership with our Customers. We help our Customers achieve competitive advantage in their respective markets. The KE Group operates a system of continuous product and system improvements that support our Customer's short and long term needs.

Our People

We firmly believe that our employees are the future of the Group. Personal development and training programmes are universally in place – from shop floor to Board Room level.

All employees within the KE Group are empowered to take responsibility and have pride in their workmanship.

It is the process of active learning and progression that equips our People with the expertise and motivation to become involved and seek improvements in products and services that are of maximum benefit to our Customers.

Our Responsibilities to the Environment and Community

A Group that is oriented towards Customer satisfaction has to behave responsibly to the environment. The KE Group knows the importance of ensuring its products and manufacturing processes are safe and friendly to the environment.

The KE Group regards itself as a caring and supportive member of the community. Efforts are directed at helping the community and schools in education and recreational activities as well as providing sponsorship and actively taking part in local charity events.
